

Healed Photo and Review Guide

Draft. Not yet approved by the studio's qualified practitioner. Do not issue to clients.

We would love to see how your work has settled. This is completely optional.

Sending a healed photo

- Wait until the tattoo or piercing is fully healed, usually four to eight weeks for tattoos.
- Natural daylight, no filters, and the whole piece in frame.
- Upload it through your portal. It stays private to you and your artist unless you tell us otherwise.
- If you think something is not healing properly, send a photo sooner. We would rather look early.

Permission to share

Sharing your photo on our portfolio or social media is a separate choice. You can say yes to one and no to another, and you can change your mind later. Anything already published may remain in circulation elsewhere, but we will take it down from our own channels. Before a photo is shared we will check that it does not show your face, name or other identifying details unless you have said that is fine.

Leaving a review

An honest review helps other people choose a studio. If anything was not right, we would rather hear it directly so we can fix it. We do not write or pay for reviews, and we do not ask for positive reviews only.

Practitioner to confirm: that the studio does not offer incentives for reviews, and the process for removing a shared photo.

Questions? Email thedesk@rebelliousink.tattoo. For anything medical, contact NHS 111 or your GP. In an emergency, call 999.
